5/1/77: A quick note re the LHO-Navy documents you sent me. The first 2 pages are other copies of CE's 917 and 918. The info blocked out differs slightly from what was blocked out on the WC's copy. Note, on the Navy copy, you can tell that the shorter telegram (CE 917) deals with LHO, "former Marine" and _____ "former Navy." On CE 917, "former Navy" is also blanked out. Lane reprints CE 917 as Appendix VII to CITIZEN'S DISSENT, with a page ref to earlier in the book, where he suggests that the blanked out portion was a reference to secret credntials of LHO. Guess again, Mark.
